Microliter pipettes PIPETMAN® Single-Channel , GILSON®

Ref.: GILSON.PIPETMAN | Categoría: Micropipetas, Pipetas automáticas

Descripción

PIPETMAN®, recognized as the pipetting standard for its reliability and proven durability, is a fully adjustable, air-displacement pipette that uses disposable tips. PIPETMAN combines legendary accuracy, precision, and durability with easy pipetting and handling. PIPETMAN pipettes come in a large range of volumes with reduced pipetting forces for hours of comfortable pipetting. Eight single channel models cover a volume range from 0.2 µL to 10 mL and eight multichannel models cover a volume range from 1 µL to 300 µL.

Legendary Performance

Accurate and precise, PIPETMAN air-displacement pipettes are recognized as one of the world standard. They come in a large range of volumes, including single and multichannel models, allowing you to handle various sample types with confidence.

Easy Pipetting

PIPETMAN feels like PIPETMAN® Classic but with lower forces for enhanced pipetting habits with a standard pipette.

Built-to-Last and Convenient

Made of PVDF and stainless steel, PIPETMAN offers premium durability. Built-to-last, it is the economical solution for years of pipetting.

Simple to Maintain

Routine cleaning and maintenance are all that is required to keep PIPETMAN in top condition for years. The PIPETMAN design allows for easy access to user-serviceable parts, along with a fully autoclavable tip holder and ejector

Especificaciones técnicas

Referencia		Modelo	Volumen	Color	PIPETMAN® DIAMOND Tips	Env
F144054M		PIPETMAN P2, 0.2-2 µL, Metal Ejector	0.2 - 2 µl	Naranja	D10 DL10	1
F144055M		PIPETMAN P10, 1-10 µL, Metal Ejector	1 - 10 µl	Rojo	D10 DL10	1
F144056M		PIPETMAN P20, 2-20 µL, Metal Ejector	2 - 20 µl	Beige	D200	1
F144057M		PIPETMAN G P100G, 10-100 µL, Metal Ejector	10 - 100 µl	Rosa claro	D200	1
F144058M		PIPETMAN P200, 20-200 µL, Metal Ejector	20 - 200 µl	Amarillo	D200 D300	1
F144059M		PIPETMAN P1000, 100-1000 µL, Metal Ejector	100 - 1000 µl	Azul	D1000 D1200	1
F144066		PIPETMAN P5000, 500-5000 µL	500 - 5000 µl	Morado	D5000	1
F144067		PIPETMAN P10ML, 1-10 mL	1000 - 10000 µl	Azul claro	D10mL	1
