

Microliter pipettes PIPETMAN®L Multi-Channel, GILSON®

Ref.: GILSON.PIPETMANL.Multi | Categoría: Micropipetas, Pipetas automáticas

Descripción

Designed for performance and comfort, PIPETMAN® L comes in a comprehensive range of models adapted to your needs in the lab. Comfortable, precise, accurate, and reliable, use PIPETMAN L pipettes confidently in your applications.

Convenient Use

Lightweight and balanced, PIPETMAN L combines an ergonomic design with minimized pipetting forces, giving you the ability to pipette longer without fatigue. Right-handed or left-handed? No problem. Adjust the location of the tip ejector to the most comfortable position for you.

Secure Pipetting

Reduce pipetting errors and avoid accidental volume changes during pipetting cycles with a true volume-locking mechanism for improved accuracy and precision. PIPETMAN L variable volume models are all fully autoclavable without disassembly for maximum convenience and protection from cross-contamination. Large volume models are equipped with a plastic tip ejector to avoid direct contact with the tip and better compatibility with chemicals.

Choose your Model

Choose your channel number and volume range, up to 1200 µL for various protocols. Four PIPETMAN L multichannel models equipped with V-rings (VR models) offer an improved compatibility with tips from other brands.

GLP Compliance

PIPETMAN L models feature a DataMatrix 2D code for easy traceability. Use a 2D code scanner to transfer the code automatically into any traceability or asset management system. Also, the pipette serial number is engraved on the body of the pipette for unique identification.

Especificaciones técnicas

Referencia		Modelo	Volumen	Canales	Color	PIPETMAN® DIAMOND Tips	Env
GILFA10013		PIPETMAN L Multichannel P8x10L, 0.5-10 µL	0.5 - 10 µl	8	Rojo	D10 DL10	1
GILFA10014		PIPETMAN L Multichannel P12x10L, 0.5-10 µL	0.5 - 10 µl	12	Rojo	D10 DL10	1
