Matraz aforado clase A, con tapón PE, graduación en blanco, DURAN®

Ref.: DURAN.21678 | Categoría: Matraces aforados

Descripción

With scratched graduation mark and octagonal PE stopper

- Complies with ISO 1042
- Made from borosilicate glass 3.3
- With batch certificate, without certificate of conformity
- Outstanding precision during volumetric measurement and high-quality process stability
- Thanks to the exact processing and precisely calibrated scales, they permit the highly accurate determination and measurements of volume
- Calibration based on the poured in volume (“In”) at a + 20 °C reference temperature
- The volume content tolerances conform to accuracy Class A
- Supplied with octagonal polyethylene stopper
- With scratched graduation mark and white print image
- Fired-on, highly durable white print
